Who are Angels for a Heavenly Clean?

Angels for a Heavenly Cleaning Ltd is a cutting-edge specialist commercial and residential deep cleaning and sanitization firm. We are based in North West covering the whole of London and home counties

Angels for a Heavenly Cleaning Ltd aims to provide a complete sanitation solution to Residential Homes, Offices, Schools, Commercial Property, Hotels, Serviced Accommodation, community centers to keep sites operating as safely as possible.

We are a reactive and proactive cleaning firm combining years of experience with the latest specialist equipment and disinfectants.

What is ULV Sanitization?

You will have seen this technology first widely used in countries such as South Korea who have really successfully managed the corona virus pandemic.

ULV Nano Particle machines deliver NT Disinfectant one of the fastest acting and most powerful Virus, Bacteria, fungi killing products available today killing 99.999% of Virus's including the Corona Virus Family, Bacteria, fungi & is yet so eco-friendly causes no harm to plants, animals and aquatic life.

This advanced sanitizer will dispense Nano particles of under 5 microns fired at a rate of 300,000 per hour.

Features include a 1.5 litre tank, a 560 Watt Samsung motor, outflow of 15-30 LPH

Adjustable droplet size between 5-50 microns and a two-speed output control

Thanks to its compact design, it is ideal for spraying in smaller spaces including vehicles, In addition the reduced noise levels are ideal for hospitals, nursing homes and schools.

- Tank Capacity **1.5 Litres**
- Power **220V / 110V**
- Flow Rate **15-30LPH**
- Droplet Size **5 - 50 microns**
- Net Weight **3 kg**
- Dimensions **48 x 20 x 25 cm**

What are the Key Benefits?

- **Time & Cost Efficiency plus Minimal Disruption**

NT Disinfectant is so effective and efficient very little preparation is needed, and as the Angels NT Particle Machine disperse particles at a rate of 300,000 per hour enable us to sanitize an average sized classroom within 15 minutes. The products are so ecologically balanced and safe the area is usable within 15 minutes of treatment

- **More Effective than Traditional Cleaning**

Angels NT Sanitizing agent disinfects every hard to reach surface and can be used on and around toys, hard and soft furnishings, electrical equipment, PC's, Keyboards and telephones 100% Safely.

It will can also sterilize files and paperwork and reaching where no other cleaning product can reach. It remains active continues to work for at least 7 days after the initial application.

Traditional Surface cleaners and alcohol based cleaners are only effective for a short period after they dry. Worst of all they only clean easy to reach surfaces allowing bacteria and germs to quickly recolonize and return.

- **Kills Airborne Pathogens**

ULV sanitation is the only way to completely kill airborne pathogens.

- **Environmentally Friendly & Safe**

Contains no irritants, Non-Flammable, Non harmful to animals and plants, ISO 9001, Tested to be safe on skin

Disinfectant HDL4H – Coronavirus

STATEMENT FROM MEDIMARK SCIENTIFIC LTD

“We can comfortably state that **HDL4H Disinfectant is effective against Coronavirus** on the following basis:

ANGELS NT Disinfectant has been tested against other Group IV positive sense single strand RNA viruses under the EN14476 test protocol (such as Caliciviridae), but also Vaccinia Virus the standard reference organism for enveloped viruses. Therefore, it is reasonable to infer efficacy against **Coronavirus** using according to the test results achieved.”
